MUHAMMED ISHAQ

Artificial Intelligence (AI) and Machine Learning (ML) Engineer | Full-Stack Software Engineer | Computer Scientist

CONTACT INFORMATION

Location: Keffi, Nigeria
Phone: +234 806 863 8021
Email: techiemuaishaq@gmail.com
LinkedIn: linkedin.com/in/muaishaq
GitHub: github.com/muaishaq
Portfolio: muaishaq.netlify.app

PROFESSIONAL SUMMARY

Computer Science graduate (Second Class Upper Honours, Cumulative Grade Point Average (CGPA) 4.39) and Artificial Intelligence (AI) / Machine Learning (ML) Engineer with experience building and deploying full-stack and AI-driven applications. Led a development team to the National Finals of the Huawei Information and Communications Technology (ICT) Academy Innovation Competition with TechTrust, an AI developer credential verification platform. Delivered 11 applications across 2025 to 2026 for clients and communities. Led student bodies representing 2,000+ computing students. Skilled in Python, TensorFlow, Keras, MindSpore, React, TypeScript, Node.js and MongoDB.

KEY SKILLS

- **AI and Machine Learning (ML):** Python, TensorFlow, Keras, Huawei MindSpore, Scikit-Learn, NumPy, Pandas, Artificial Neural Networks (ANN), Multilayer Perceptron (MLP), Convolutional Neural Networks (CNN), Transformer models, Hugging Face, Natural Language Processing (NLP), Large Language Model (LLM) APIs, Explainable AI (XAI), AI Agent Evaluation, Feature Engineering, Model Training
- **AI-Assisted Development:** Prompt Engineering, AI Pair Programming, Rapid Prototyping, Natural Language Development Workflows
- **Front-End Development:** React, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap, HTML5 (Hypertext Markup Language), CSS3 (Cascading Style Sheets)
- **Back-End Development:** Node.js, Express.js, PHP, Java, C++, RESTful Application Programming Interfaces (APIs), GitHub API integration, WebSockets
- **Databases and Systems:** MongoDB, MySQL (Structured Query Language), Database Modelling, System Integration, Systems Analysis and Design, Server and State Management
- **Data and Security:** Data Mining, Outlier Analysis, Simulation, Cloud Computing, Cybersecurity Fundamentals
- **Leadership and Professional Skills:** Team Leadership, Agile Methodologies, Strategic Planning, Budgeting, Partnership Management, Technical Writing, Public Speaking

PROFESSIONAL EXPERIENCE

Freelance Full-Stack and AI/ML Developer | Self-Employed | Keffi, Nigeria | 2025 – Present

- Engineered Sentinel, a live multimodal content moderation dashboard, combining Transformer text classifiers with Convolutional Neural Networks (CNNs) to flag hate speech, violence and harassment in real time (React, Hugging Face, Python, WebSockets).
- Built Aquality.ai, an end-to-end Machine Learning (ML) water potability predictor using curated datasets, engineered features and Explainable AI (XAI) output layers for user transparency (Python, Scikit-Learn, React, Tailwind CSS).
- Developed Nova, an AI chatbot builder with a single-window editor to configure chatbot persona, knowledge base and tone, plus live-streaming Large Language Model (LLM) responses (React, TypeScript, LLM APIs).
- Created ChurnGuard AI, an Artificial Neural Network (ANN) customer churn prediction engine with an interactive analyst dashboard, feature-attribution explanations and batch-scoring scripts (TensorFlow, Keras, React).
- Delivered 4 further production web applications: Faculty Conference Platform (registration, scheduling and speaker management), Kusada Local Government Portal (multi-department citizen news site), NACOS Sports Portal (fixture algorithms and real-time standings tables) and Ramadan Reminders mobile-first app.

Chapter President | Nigeria Association of Computer Science Students (NACOS), FUDMA Chapter | Dutsin-Ma, Nigeria | 2025 – 2026

- Conceptualised, budgeted and executed the first state-wide tech innovation hackathon in Katsina State across 4 stages with an approved budget of ₦4.5M+ (4.5 million Naira).

- Secured 4 formal long-term partnerships with regional tech organisations: Lumilab, Kirkira, Kebram Tech and the Katsina State Directorate of Information and Communications Technology (ICT).
- Convened 6 regional tertiary institutions to centralise tech literacy events across Katsina State.
- Launched 2 student incubation dev clubs, Tech Guild and Tech Lite, expanding technical development opportunities for members.
- Built the FUDMA Tech Hackathon website (registration for 5 track challenges) and the NACOS FUDMA Chapter Hub (executive profiles and event listings) using React, TypeScript and Tailwind CSS.

Team Leader and AI Engineer | TechTrust Final Year Project, Federal University Dutsin-Ma (FUDMA) | Dutsin-Ma, Nigeria | 2025 – 2026

- Led the development team to the National Finals of the Huawei Information and Communications Technology (ICT) Academy Innovation Competition (January 2026), representing FUDMA nationally.
- Designed and built an AI-powered developer credential verification platform that matches authentic developers with recruiters.
- Integrated a Huawei MindSpore Multilayer Perceptron (MLP) neural network with the GitHub API to assess code authorship and developer skill metrics (Node.js, Express.js, MongoDB, REST APIs).

Faculty President | Faculty of Computing, Federal University Dutsin-Ma (FUDMA) | Dutsin-Ma, Nigeria | 2022 – 2026

- Represented 2,000+ computing students in university governance, resource allocation and academic policy reviews.
- Elected Faculty Sports Director before progressing to the Presidency.

Student Intern | Students' Industrial Work Experience Scheme (SIWES), ICT Center | Nigeria | 2025

- Designed, built and tested 3 types of interactive developer tools: a FUDMA Student Portal user interface clone, a Football Quiz App with state-managed leaderboards, and persistent Local Storage task managers.

EDUCATION

Bachelor of Science (B.Sc.) in Computer Science | Federal University Dutsin-Ma (FUDMA) | Dutsin-Ma, Nigeria | 2022 – 2026

- Graduated with Second Class Upper Honours, Cumulative Grade Point Average (CGPA) of 4.39.
- Relevant coursework: Software Engineering, Advanced Data Structures and Algorithms, Artificial Intelligence and Machine Learning, Cloud Computing, Cybersecurity, Applied Data Mining, Systems Analysis, Computer Simulation.

CERTIFICATIONS & LICENSES

- Introduction to Agents (Artificial Intelligence (AI) Agent Evaluation) | Mercor | October 2026
- Career Essentials in Generative AI | Microsoft and LinkedIn | June 2025
- Generative AI: The Evolution of Thoughtful Online Search | LinkedIn | June 2025
- Ethics in the Age of Generative AI | LinkedIn | June 2025
- Introduction to Artificial Intelligence (AI) | LinkedIn | June 2025
- Microsoft 365 Copilot Framework for Enterprise Workflows | LinkedIn | June 2025
- Hypertext Markup Language (HTML) Certification | Online Assessment Engine | 2024 – 2025
